## AMULET COACHING SERVICES FOR SMEs

I hope this email finds you well. I am writing to let you know about an important opportunity available through AMULET. As you may know, our mission is to foster and support innovation in the lightweight sector, and one of the activities we are now offering is the **coaching services for SMEs**.

The coaching activity consists in one-on-one meetings with one of our experts who can provide you with the knowledge and skills needed to develop new lightweight solutions within your company. Our experts are specialized in technical and economic topics, ensuring that you receive tailored advice to address your specific needs and issues.

To apply for coaching activities, simply access the coaches' directory on the ELCA platform (Resources > Coaches | <https://elca.innogetcloud.com/coaches>) and select the coach you would like to work with.

You can then contact them directly to schedule your coaching session(s) by clicking on **"Contact coach"**. We highly recommend starting off the collaboration with the coach by presenting the challenges you're facing in your company and building together the calendar of sessions.

If you have any questions or would like further information, please do not hesitate to contact us. We can also help in addressing you to the most appropriate expert, according to your needs.

Best regards,  
AMULET TEAM
